

Wait for the welcome email and then click on the link in that email to setup your password:

Enter in a strong password - the form will give you a green pop up to let you know if it is or not. Click the **SUBMIT** button to continue

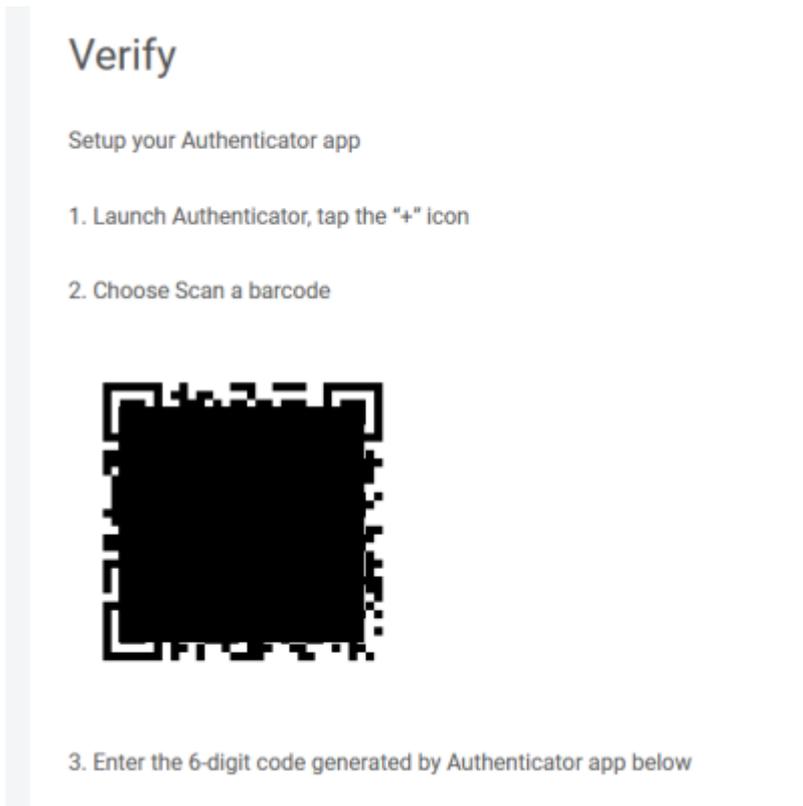

Once you have entered and re-entered a strong enough password, you will be connected to the Breach Secure Now portal.

The screenshot shows a login interface with the following elements:

- An "Email Address" input field containing a redacted email address ending in "ns".
- A "Password" input field.
- A dark blue "SIGN IN" button.
- Links for "New User?" and "Forgot your password?" below the button.

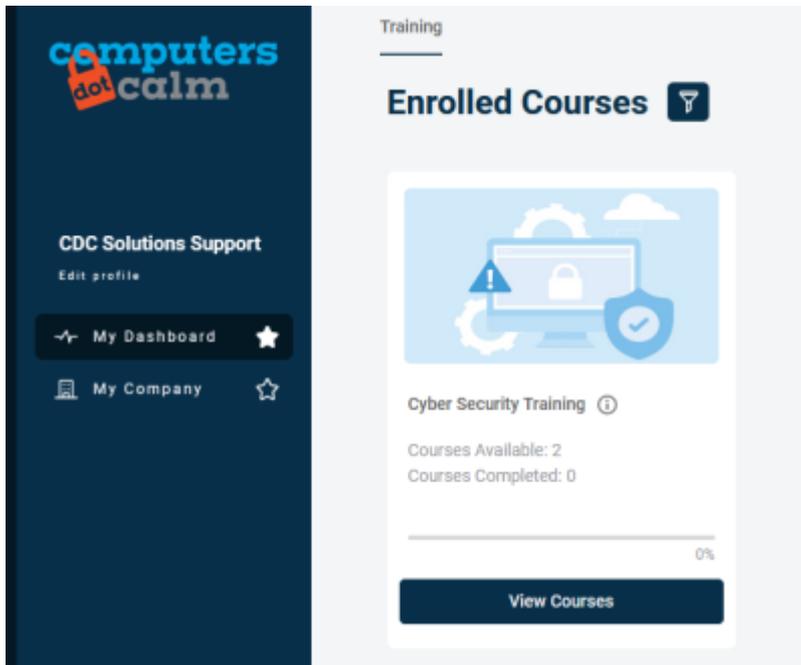

Go ahead and login.
If this is the first time you have logged in, you will be asked to setup your MFA.

The screenshot shows the "Verify" section of the setup process:

- Verify** (Section Header)
- Setup your Authenticator app
- 1. Launch Authenticator, tap the "+" icon
- 2. Choose Scan a barcode
- A QR code for scanning.
- 3. Enter the 6-digit code generated by Authenticator app below

Scan the QR Code with your LastPass Authenticator and then enter in the 6 digit code (The OTA will be labeled PII-Protect) in the 6 separate boxes under the QR code. Click the **ENTER** button when green. If successful, you will be presented with the home page in your portal on Breach Secure Now.

Go ahead and complete your training.
When done, you can click the Logout button on the bottom left hand of the menu.
